Summary of qualifications

In 2017, I graduated for **Industrial Engineering** at the Rotterdam University of Applied Sciences. In January 2019, I started working for [PROPOS Software](#) as QRM Advisor & Project Manager. Before that, I worked for Kooima Company (Rock Valley, Iowa) as Process Improvement Engineer, where I was responsible for implementing **Quick Response Manufacturing** and **Lean**. During the 3 years that I worked for Kooima Company, I found how QRM helps a high mix/low volume job shop to **reduce lead times** by over 30% and the increase of on time delivery by over 35%.

Education

2013-2017 Industrial Engineering (Bachelor's degree) at the Rotterdam University of Applied Science
2008-2013 HAVO, Profile Economics and society (extra course: Physics and Mathematics level B) at the Wartburg College, Revisus location

Work experience

2017 – To date **QRM ADVISOR & PROJECT MANAGER** *Doetinchem, NL*
Employer: [PROPOS software](#)
Description: As Quick Response Manufacturing advisor I advise the customers of PROPOS Software on how to design their processes based on the principles of Quick Response Manufacturing. As Project Manager, I lead projects to implement the PROPOS Software.

2015 – 2019 **PROCESS IMPROVEMENT ENGINEER** *Rock Valley (IA), USA*
Employer: [Kooima Company](#)
Description: My goal as Process Improvement Engineer at Kooima Company was to advise the management on how to reduce production lead times and increase machine and operator efficiency. In the course of 3 years we successfully implemented Quick Response Manufacturing, resulting in a lead time reduction of over 30% and the increase of on time delivery by over 15%.

As part of the project we implemented [PROPOS software](#), a production scheduling software based on the principles of QRM and Lean.

2017 (4 months)	GRADUATION INTERNSHIP OUTPUT INCREASE	<i>Nieuwerkerk a/d IJssel</i>
	Employer: Nedco BV / Sluban Europe	
	Description: For my graduation internship, I have advised Nedco BV — a wholesaler in plastics, presentation displays, and Sluban construction toys — on how to increase its output by at least 30%, by changing the company strategy and structure.	
2014-2016	ORGANIZATIONAL DEVELOPER	<i>Krimpen a/d IJssel, NL</i>
	Employer: Hollandia Infra BV	
	Description: My experiences at Hollandia Infra BV — a company specialized in constructing bridges and complex steel structures — gave me experience with being a project assistant of culture-changing projects as well as being an organizational developer. In addition to supporting culture changing projects, I also did a lot of design work for Hollandia, including website icons, posters and company magazines. I also designed a company brochure for personnel and customers.	
2013-2014	INDEPENDENT GARDENER	<i>Capelle a/d IJssel, NL</i>
	Employer(s): Neighbors, family and friends	
	Description: As a part time job, I hired myself as a lawn carer for neighbors, family and friends.	
2011-2013	WAREHOUSE EMPLOYEE	<i>Capelle a/d IJssel, NL</i>
	Employer: Gastrovino Waaijenborg – Wine and delicacies	
	Description: In this part time job, I was responsible for loading and unloading the goods, and to take care of the warehouse.	
2009-2011	MAINTENANCE EMPLOYEE	<i>Capelle a/d IJssel, NL</i>
	Employer: Albert Heijn Supermarket	
	Description: In this part time job, I was responsible for maintaining the grocery store, such as repairing stock shelves, cleaning the aisles and helping customers when they accidentally dropped their groceries.	
2008-2009	GREEN HOUSE EMPLOYEE	<i>Nieuwerkerk a/d IJssel, NL</i>
	Employer: Greenhouse 'De Wilg'	
	Description: In this part time job, I was responsible for shipping the orchids on time.	

Computer Operating Skills

Lean Six Sigma **Minitab**®, Microsoft Office (**Visio**, Word, Excel, PowerPoint), logo design with **CorelDraw** (X8), Adobe Photoshop, Google **SketchUp**, maintaining Network Attached Systems (NAS, Synology).
